Infradapt LLC Announces Formation, Acquisition of McFadden Associates, LanXperts, and Vital IT Solutions.

- Combination creates regional technology services firm supporting more than 12,000 users.

PHILADELPHIA, Pennsylvania – July 5, 2006 – LanXperts, Inc. of Allentown, Vital IT Solutions Inc. of Exton, and McFadden Associates Inc. of Philadelphia and Easton today announce their merger and consolidation of operations to form Infradapt LLC.

The combination of the three firms creates a service organization with resources capable of serving firms throughout the region. Presently supporting more than 12,000 users, its areas of focus include:

- * Technology and network support (departmental outsourcing).
- * 24-Hour Call Center to solve computer support needs.
- * Advanced telephone systems and Voice Over Internet Protocol (VoIP) technologies.
- * Security and Regulatory Compliance Assessments including HIPAA, SOX, GLBA, CISP (Visa/MasterCard).

"We're very excited to combine our various capabilities to better serve our customers and expand our reach," stated Corey S. McFadden and Antonio Haddad, Managing Partners of Infradapt. "Adding Vital IT Solutions to the mix further enhances our coverage of the security assessment market," continued McFadden.

Infradapt will leverage LanXperts' long-standing converged networking expertise to continue its delivery of advanced market-leading technology solutions. "We began the delivery of Voice over Internet telephony solutions in 1999, extending networks via VPNs and have managed dozens of large organizational conversions ever since," stated Mr. Haddad.

McFadden's strong position as an outsourced helpdesk and network services firm, including call center operations in Easton, PA, offer Infradapt an ideal platform for growing its services in this area. Consolidated billing, customer interaction, and other software systems completely automate the exchange between employees, vendors, and ultimately customers throughout the service lifecycle.

Infradapt will employ 14 people from its offices in Philadelphia and Easton with an immediate expansion planned during the second half of 2006.

About McFadden Associates

McFadden Associates, formed in 2001, services a variety of industries with solutions ranging from outsourced helpdesk and technology support solutions for small to mid-sized businesses to application development and large-scale Internet infrastructure solutions.

Founded and managed by Corey S. McFadden, formerly chief executive of a software and Internet services firm, McFadden Associates has grown to serve clients throughout the United States including public companies, universities, and telephone carriers.

McFadden has a strong reputation in network and Internet services and currently operates one of the Internet's largest anti-spam engines, presently scanning over three billion messages per day.

About LanXperts

Established in 1986, LanXperts is a Cisco Certified Business Partner and a network and technology services organization with a focus on Voice, Video, LAN, WAN, VPNs, Wireless and data security solutions. Its professionals carry Cisco, Microsoft, Linksys, Linux, Checkpoint, and several other certifications.

Operated by Antonio Haddad, LanXperts served more than 400 networks in the United States and was at one point exclusively contracted by a large national startup, Expanets, Inc., to handle installation and support services in the Eastern Pennsylvania, New Jersey and Delaware regions.

About Vital IT Solutions

Vital IT Solutions Inc. was founded by John Reilly in 2002 as a security-centric consulting firm serving clients in a variety of industries. Vital IT clients have included Fortune 1000 businesses, regional universities, manufacturing companies, and members of the banking industry.

Vital IT has extensive experience in network design and implementation and possesses a GIAC security certification from the SANS Institute as well as membership in InfraGard, a joint-initiative between the FBI and private industry to secure critical infrastructure in the United States.
